EVELYN JOHNSON-TAYLOR

ENCOURAGING, EMPOWERING & EQUIPPING WOMEN TO WIN

**Dr. Evelyn Johnson-Taylor – Author | Speaker | Caregiver Champion**

Dr. Evelyn Johnson-Taylor is a seasoned Theology Professor, compassionate empowerment speaker, and dedicated advocate for caregivers navigating the physical, emotional, and spiritual demands of caring for others. With more than 30 years of ministry and leadership experience, she brings deep understanding, credibility, and heartfelt empathy to every space she serves. As a former long-term caregiver herself, Dr. Taylor understands firsthand the hidden sacrifices, identity shifts, and emotional weight caregivers often carry. Her work is shaped by both lived experience and rigorous scholarship. She holds degrees in Women's Studies and Nursing, along with a Master's and Ph.D. in Ministry—an interdisciplinary foundation that uniquely equips her to address caregiving through theological, emotional, and holistic perspectives.

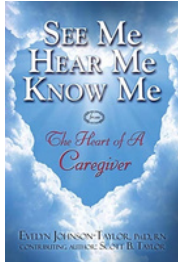

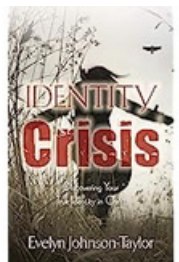

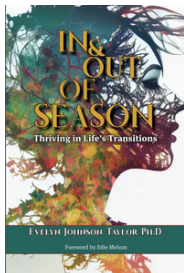

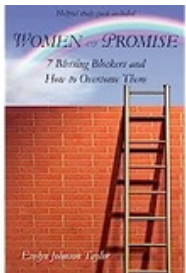

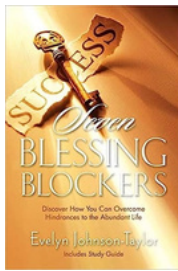

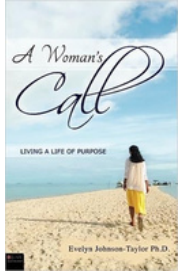

Whether speaking to caregivers, faith communities, healthcare professionals, or organizations, Dr. Taylor does more than share information—she creates moments of restoration and renewal. Her message empowers caregivers to honor their calling without losing themselves, to find healing in the midst of responsibility, and to reclaim purpose, strength, and hope while serving others with courage and faith.

Request me as a speaker  
on my website

"It was great having you here. Everyone really enjoyed your presentation. We look forward to having you back again in the future." **Kristin Rowe, CTRS-Certified Therapeutic Recreational Specialist, Coordinator for Stoke Support Group Meeting-Florida Hospital, Tampa, FL**

"I had the opportunity to observe firsthand the exceptional skills and profound impact of Dr. Johnson-Taylor as a speaker/presenter. From the outset, Dr. Johnson-Taylor demonstrated an impressive ability to engage the audience. Her presentation style is both dynamic and approachable, making complex topics accessible while keeping the audience's attention throughout. The use of compelling anecdotes, visuals, and interactive elements allowed for a rich dialogue that resonated deeply with the seniors. Overall, my experience collaborating with her was nothing short of exceptional. She exhibited professionalism, creativity, and a commitment to excellence. I wholeheartedly recommend Dr. Johnson-Taylor for any speaking engagements or projects in the future, as I am confident she will deliver outstanding results that both engage and educate."

**Earnestine Smart, Director, Senior Wednesday Ministry, First Baptist Church of Glenarden, Maryland**

Evelyn exceeded our expectations. Her presentation was personal and impassioned, yet she provided the nurses with actionable advice, such as "danger" signs and techniques to support the caregiver. She was approachable and caring. Her spirituality was appreciated by these nurses whose specialty is "intentional care of the spirit." I highly recommend Evelyn as a speaker."

**Donna Kremer, MDiv, RN-BC, Faith Community Nursing Coordinator, Morton Plant Mease Healthcare, Dunedin, FL**

"Dr. Taylor presented 'From the Heart of a Caregiver' for our Faith Community Nurses in the Tampa Bay Area. She worked with our coordinators to meet all of the objectives for the audience to provide a powerful CEU event, and made time to meet with attendees personally afterwards. We laughed, cried—as she shared her personal insights and experiences, explaining the journey and process of caregiving. Direct comments from the evaluations include "She is so real, so kind, and very dynamic." "She has a unique gift to explain the perspectives of both the person and the caregiver, and how to maintain whole person health body, mind, and spirit." We look forward to continuing the relationships.

**Susan J. Fontaine, BSN, RN, Faith Community Nursing Supervisor, BayCare Health System, Clearwater, FL**

Evelyn, thank you for sharing your journey of pain, strength, struggles, and sorrow. You truly are a blessing. Know that through your pain, we have gained a warrior with a powerful voice for the people and those who need to be educated. Through your wisdom and knowledge, you will GIVE hope to many.

**Rita Segarra — Stroke Survivor, Florida Adventist Hospital**

## Caregiver Topics

### **Compassionate Caregiving: Balancing Support and Self-Care**

Helping family caregivers navigate the challenges of caring for loved ones while maintaining their own well-being. This session offers practical strategies, insights, and guidance to foster resilience, reduce stress, and promote a balanced approach to caregiving. Participants will leave empowered to support their loved ones effectively without sacrificing their personal health and peace of mind.

### **Navigating Caregiver Challenges: Accessing Resources and Building Confidence**

Providing family caregivers with practical guidance for managing the complexities of caregiving. This session explores how to identify and utilize available support resources, make informed decisions, and build confidence in day-to-day caregiving responsibilities. Participants will gain actionable strategies to navigate challenges more effectively and feel empowered in their caregiving journey.

### **Life After Caregiving: Navigating Loss, Transition, and Renewal**

Supporting caregivers as they transition out of their caregiving role, helping them process grief, redefine their identity, and plan for a renewed sense of purpose. Participants will explore strategies for emotional healing, self-care, and embracing new opportunities in the post caregiving season.
